

# PE4126

High Linearity Quad MOSFET Mixer for DCS 1800 BTS

### Features

- Integrated, single-ended RF & LO interfaces
- High linearity: IIP3 of +32 dBm, 1700 - 1800 MHz (+17 dBm LO)
- Low conversion loss: 7.9 dB (+17 dBm LO)
- High Isolation: typical LO-IF at 37 dB, LO-RF at 38 dB (1.8 GHz)
- Designed for low-side LO injection

### Product Description

The PE4126 is a high linearity, passive Quad MOSFET Mixer for DCS 1800 Base Station Receivers exhibiting high dynamic range performance over a broad LO drive range up to 20 dBm. This mixer integrates passive matching networks to provide single-ended interfaces for the RF and LO ports, eliminating the need for external RF baluns or matching networks. The PE4126 is optimized for frequency down-conversion using low-side LO injection for DCS 1800 Base Station applications, and is also suitable for use in up-conversion applications.

The PE4126 is manufactured on Peregrine's UltraCMOS™ process, a patented variation of silicon-on-insulator (SOI) technology on a sapphire substrate, offering the performance of GaAs with the economy and integration of conventional CMOS.

Figure 1. Functional Diagram

Figure 2. Package Type

8-lead TSSOP

Table 1. AC and DC Electrical Specifications @ +25 °C ( $Z_S = Z_L = 50 \Omega$ )

Parameter	Minimum	Typical	Maximum	Units
Frequency Range:				
LO	1450	--	1550	MHz
RF	1700	--	1800	MHz
IF <sup>1</sup>	--	250	--	MHz
Conversion Loss <sup>2</sup>		7.9	8.3	dB
Isolation: LO-RF				
1.7 GHz	30	34		dB
1.75 GHz	32	36		dB
1.8 GHz	34	38		dB
LO-IF	33	37		dB
Input IP3	30	32		dBm
Input 1 dB Compression		21		dBm

Notes: 1. An IF frequency of 250 MHz is a nominal frequency. The IF frequency can be specified by the user as long as the RF and LO frequencies are within the specified maximum and minimum.

2. Conversion Loss includes loss of IF transformer (M/ACom ETK4-2T - nominal loss 0.7 dB at 250 MHz.)

\*Test conditions unless otherwise noted: LO = 250 MHz, LO input drive = 17 dBm, RF input drive = 3 dBm.

**Figure 3. Pin Configuration (Top View)**

**Table 2. Pin Descriptions**

Pin No.	Pin Name	Description
1	LO	LO Input
2	GND	Ground connection for Mixer. Traces should be physically short and connect immediately to ground plane for best performance.
3	RF	RF Input
4	GND	Ground.
5	GND	Ground.
6	IF2	IF differential output
7	IF1	IF differential output
8	GND	Ground.

**Table 3. Absolute Maximum Ratings**

Symbol	Parameter/Conditions	Min	Max	Units
$T_{ST}$	Storage temperature range	-65	150	°C
$T_{OP}$	Operating temperature range	-40	85	°C
$P_{LO}$	LO input power		20	dBm
$P_{RF}$	RF input power		16	dBm
$V_{ESD}$	ESD Sensitive Device		250	V

Absolute Maximum Ratings are those values listed in the above table. Exceeding these values may cause permanent device damage. Functional operation should be restricted to the limits in the DC Electrical Specifications table. Exposure to absolute maximum ratings for extended periods may affect device reliability.

### Electrostatic Discharge (ESD) Precautions

When handling this UltraCMOS™ device, observe the same precautions that you would use with other ESD-sensitive devices. Although this device contains circuitry to protect it from damage due to ESD, precautions should be taken to avoid exceeding the rating specified.

### Latch-Up Avoidance

Unlike conventional CMOS devices, UltraCMOS™ devices are immune to latch-up.

## Data Sheet Identification

### **Advance Information**

The product is in a formative or design stage. The data sheet contains design target specifications for product development. Specifications and features may change in any manner without notice.

### **Preliminary Specification**

The data sheet contains preliminary data. Additional data may be added at a later date. Peregrine reserves the right to change specifications at any time without notice in order to supply the best possible product.

### **Product Specification**

The data sheet contains final data. In the event Peregrine decides to change the specifications, Peregrine will notify customers of the intended changes by issuing a DCN (Document Change Notice).
